Supplemental Bid Bulletin No. 1

SUPPLY AND DELIVERY OF VARIOUS RADIO COMMUNICATIONS EQUIPMENT INTENDED FOR DISASTER RISK REDUCTION MANAGEMENT DIVISION

Bid Reference No. BAC4G&S-2018-040

<u>NO.</u>	<u>QUERY</u>	<u>BAC4G&S RESPONSE</u>
1	<p>One (1) Unit Analog/Digital HF/UHF/ VHF Multiband Base Radio Transceiver</p> <p>During Prebid, it was mentioned that there will be a bid bulletin that will state the changes on the requirements, instead of multiband radio, it will be two different type of radios – an HF transceiver and Dual Band Base Radio (UHF, VHF) Transceiver.</p> <p>Comment: The plan to change the requirements can exceeds the allocated ABC (Approved Budget of the Contract) of the project.</p> <p>HF Transceiver and Dual Band Base Radio are two different system, meaning there will be a separate requirement for the antenna mast, antenna, grounding, power supply and others, which can be a cause for the project to fail.</p>	<p>One (1) unit Analog/Digital HF/UHF/VHF Multiband Base Radio Transceiver requirement will stay as is.</p>
2	<p>Three (3) Units of Radio Repeater System During Prebid, it was mentioned that the required repeater is capable or manually switchable to UHF and VHF band.</p> <p>Comment: The above specification is confusing, since as per our research and experience there is no repeater available in the market that has dual band capability. It has always one band channel.</p> <p>We recommend to use VHF, instead of UHF since NTC, released a memorandum that most of UHF frequency band are already occupied by Telco companies.</p>	<p>We agreed upon that only VHF band be utilized as medium of frequency, thus VHF repeater system be installed.</p>
3	<p>Delivery Period of Thirty (30) Calendar Days Delivery, installation and completion of the whole</p>	<p>Delivery Period is changed to sixty (60) calendar days.</p>

<u>NO.</u>	<u>QUERY</u>	<u>BAC4G&S RESPONSE</u>
	<p>project has a period of thirty (30) calendar days. Comment: We may request to extend the delivery period to seventy-five (75) days. The acquisition of radio equipment usually took place for more or less than forty-five (45) days.</p> <p>Having said that, it will be hard for us to secure all the NTC licenses as well as the installation and testing if the delivery/completion period is thirty (30) calendar days only.</p>	

After considering the queries, clarifications, recommendations and suggestions, the BAC4G&S hereby decides to include, revise, amend, delete and/or adapt the following provisions:

**REVISED TECHNICAL SPECIFICATIONS
AS OF 16 OCTOBER 2018**

Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the provisions of **ITB** Clause 3.1.(a)(ii) and/or **GCC** Clause 2.1(a)(ii).
