DICT	Department of Information and Communications Technology	Phone Track	Hi! I would like to request for information regarding the exact location of my phone.  It has been missing since the 26th of June 2021. It is a Huawei Y7a model. We used the FIND DEVICE app on my brother's phone and it gave us a location.  We tried calling it a lot of times but no one was answering, and the last update was at June 28 2021 at 12:31am where it probably died already as it was shown that it was only 8% battery charge left.  Coincidence is that my friend I was with on the 26th lives in the area where my phone was located although they insist that they do not have the phone.	N/A	No	N/A	Public	NTC	N/A	N/A
